# DIL ROUNDUP

Directorate of Industrial Liaison - NED University of Engineering & Technology

## Editor's Note

University industrial collaboration refers to the interaction between higher educational system and industry aiming mainly to encourage knowledge and technology exchange. Universities have a wealth of knowledge and talent, from world class academic researchers to students and stimulate companies for internal

research and development programs. University researchers help industrial scientists to identify current research that might be useful for them to design and development of innovative processes and potential products for them.

**Engr. Dr. Muhammad Amir Qureshi**  
Director DIL

## About DIL

The Directorate of Industrial Liaison (DIL) was established at NED University of Engineering & Technology in 1997. The prime objectives of DIL are to create and enhance the required university-industry linkages in the form of various activities including Internships, Field study visits, Final year projects and Job placements.

The vision of DIL Department is to empower students to discover and pursue a path to a fulfilling career, so they can make their own unique marks Pakistan's social and economic transformation.

Recognizing that career development is a life-long process, the mission of DIL Department is to facilitate students as they explore and further understand themselves and career options, gain valuable experience, develop as professional market leaders, and present their knowledge for betterment of society.

# Jobs

Directorate of Industrial Liaison (DIL) encourages the prospective Employers for “On-Campus” hiring and facilitates them to conduct Career Counseling Sessions, Presentations, Tests and Interviews for recruitment. Many multi-national companies, some overseas employers', local business groups and Small and Medium Enterprises (SME) are availing such facilities on need basis. In this quarter (January – March 2023) 88 Companies has been facilitated in by placing their job ads & on campus hiring information on DIL’s web notice board creating equal opportunities for all the students. To increase the visibility of department core objectives like internships and jobs a new tab has been introduced and it is placed in the NED main web page front window for maximum accessibility.

# Internships

DIL department provide facility of internship opportunities in vacations for third year students in different organizations / industries as per academic calendar in their semester breaks, Ramadan break and vacations.

Group of students from third year electrical engineering department were sent for internship at Lucky Electric Power Company Limited in their semester break.

Ashar Khan Third year Metallurgical Engineer working at Karachi Shipyard Engineering & Work as an QC/Foundry intern in Ramadan Break 2023.

Almost every student gets an internship opportunity provided by DIL. After successful completion of the internships. Students submit the feedback forms on their performance from the Company and they also share their experience by sharing their feedback.

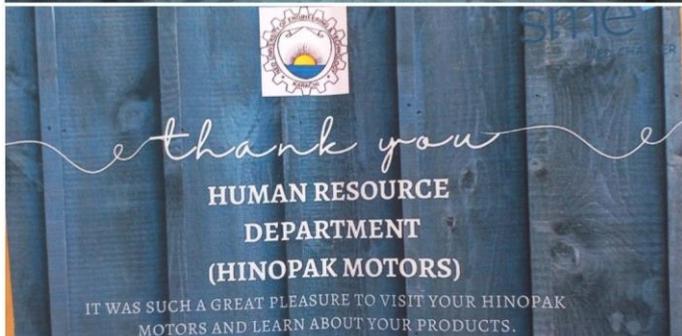

Apart from regular internships DIL has also sent students for Cooperative Education Program Internships a combination of classroom-based education with practical work experience. As a part of Co-op education program, nominated students from the university on the basis of merit has completed 3rd phase of internship successfully & they are doing internships in their Ramadan break.

## Industrial Visit

### **Hino Pak Motors**

DIL arranges study visits for the students from 2nd year onwards and faculty at various industries and organizations to get the practical exposure of the industry. In full filling the gap between studies and real working environment industrial visits are essential. It enhances learning experience and skill set level. Where similarly it gives you and chance to communicate and socialize to improve your skills.

Special thanks to Hino Pak Motors for facilitating society of manufacturing engineers providing all detail related to manufacturing and quality management..

### **Bisconi Industries**

NED students visited Bisconi Industries at Port Qasim under the supervision of Mr. Mehndi Sehwni, visiting teacher from NED University. The students went on an industrial visit to learn more about the logistics and supply chain sectors. The academic program places a strong emphasis on giving students hands-on opportunities to see how what they are learning at the Institute is put into practice. This trip also gives students the opportunity to apply their knowledge. Students also learned about the procurement, production, shipping, warehousing, distribution, and returns phases of Bisconi Industries' edible goods supply chain.

## Yunus Textile Mills

Students of NED University of Engineering and Technology on their Industrial visit at Yunus Textile Mills Limited where they were provided with a visit of their production facility followed by an introductory session in which they were warmly welcomed and got to know the overall business functions of YTML.
